We are happy to announce that the "Campus-Wide License" has been renewed, which was first offered to University of Tsukuba in this April for free with the end date of September 30, 2020.

The Campus-Wide License allows all students, faculty and staff enrolled at the University of Tsukuba to use 100+ products including MATLAB and Simulink, anytime, anywhere, on any device with no limit number.

➢ Existing users for the Campus-Wide License

Re-activation is required due to the license renewal. (Refer to "Update Your Campus-Wide License" at the links below)

PDF

➢ New users for the Campus-Wide License

Access the "MATLAB Portal Site," unique to your university at the link below, and click the "Sign in to get started" button, then you'll be automatically associated with the license. Please refer to the "Administering a Campus-Wide License" for the details.

● MATLAB Portal Site
● Administering a Campus-Wide License

Note) To sign in, you will need your MathWorks account registered with the university email address, specifically with @u.tsukuba.ac.jp, @s.tsukuba.ac.jp, or @un.tsukuba.ac.jp. If you need to change your email address of your existing MathWorks Account, please refer to the MATLAB Answers page.

MathWoks Support is available as follows;
・ Customer support, Installation support: for everyone
・ Technical support: for faculty and staff only (students can ask questions at the MathWorks community site "MATLAB Answers")

Let's use MATLAB!

Sources listed below are useful for you to learn MATLAB.

◆ **Online Training** - Self-paced online courses. Now with the license renewal, you can take all 17 courses free of charge. "MATLAB Onramp" is recommended for beginners.
◆ **Webinar** – Free online seminars hosted by MathWorks.
◆ **YouTube** – Quick videos for you to learn how to use MATLAB and Simulink, Machine learning, Deep learning and more.
◆ **Documentation** – MathWorks documentation is super! Take a look at some examples under the category or application of your interest.

In addition, for faculty members, our customer success engineer will support you in teaching with MATLAB. This is one of the benefits Campus-Wide License users can utilize. Please feel free to contact us if you have any questions or concerns.

We hope that this license will be useful for your studies, classes, and academic research. Thank you for choosing MATLAB.
