

How to Download and Install Virus Buster

All information on software distribution website Download Station is provided in Japanese, so this instruction manual explains in English how to use the website and how to install the software.

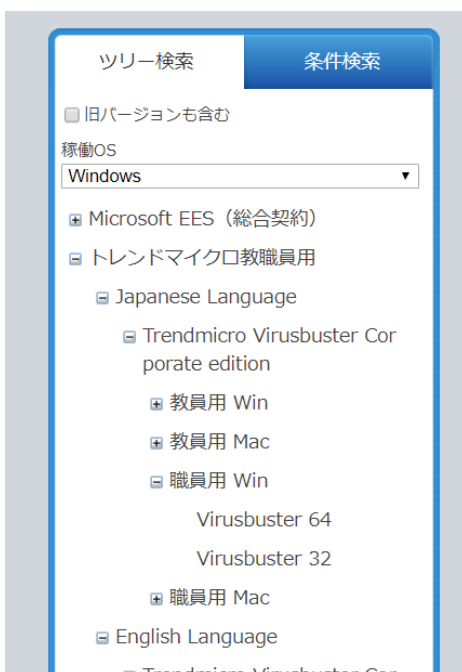

1. Enter your “ユーザーID [UTID-13]” and “パスワード [password]” and click on “ログイン [login]”.

2. Click on “ソフトウェアのダウンロード [Software Download]”.

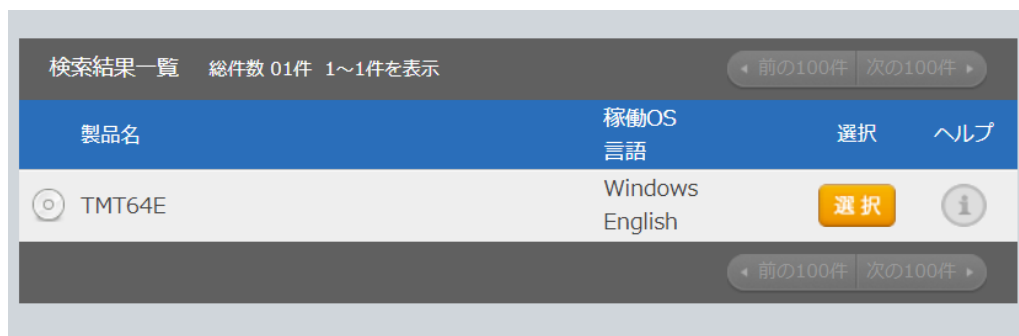

3. After choosing your OS type, click on “トレンドマイクロ教職員用 [Trend Micro for staff and faculty]”. Then choose a language (Japanese /English) and an installer type.

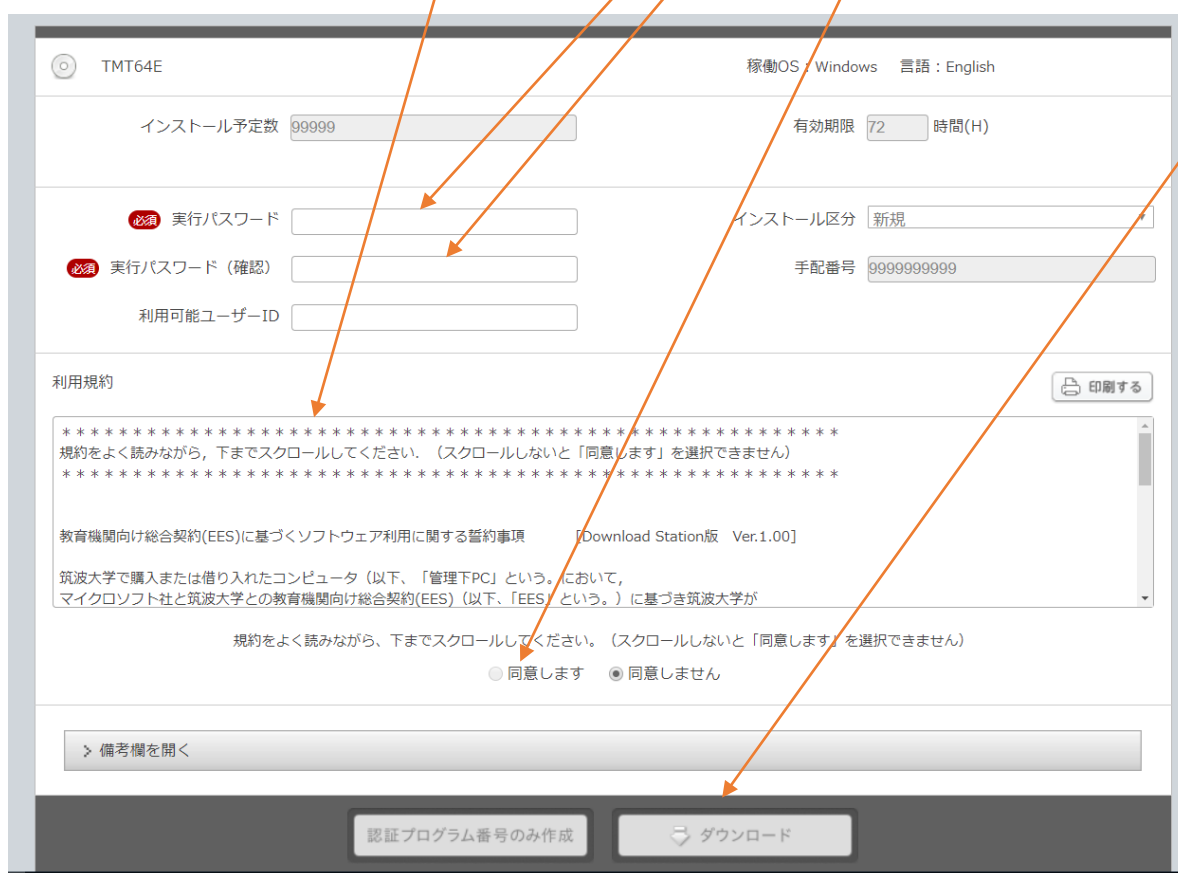

教員用 → for faculty
職員用 → for staff

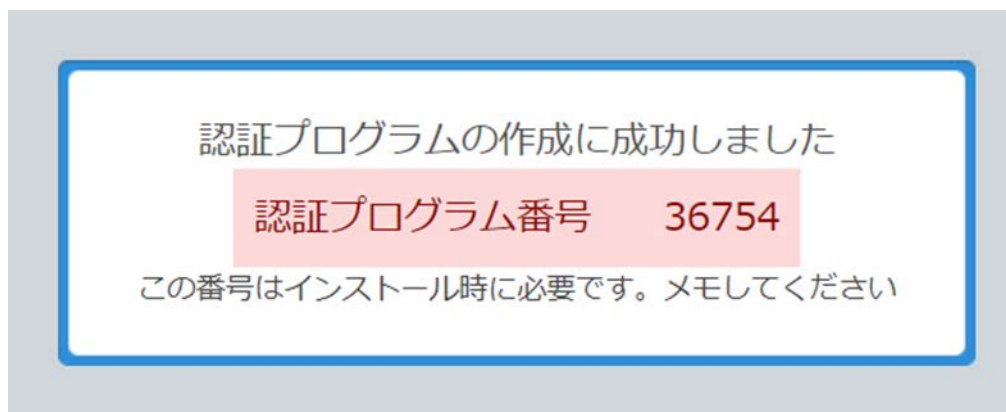

4. When the window below appears, click on “選択 [Choose]”.

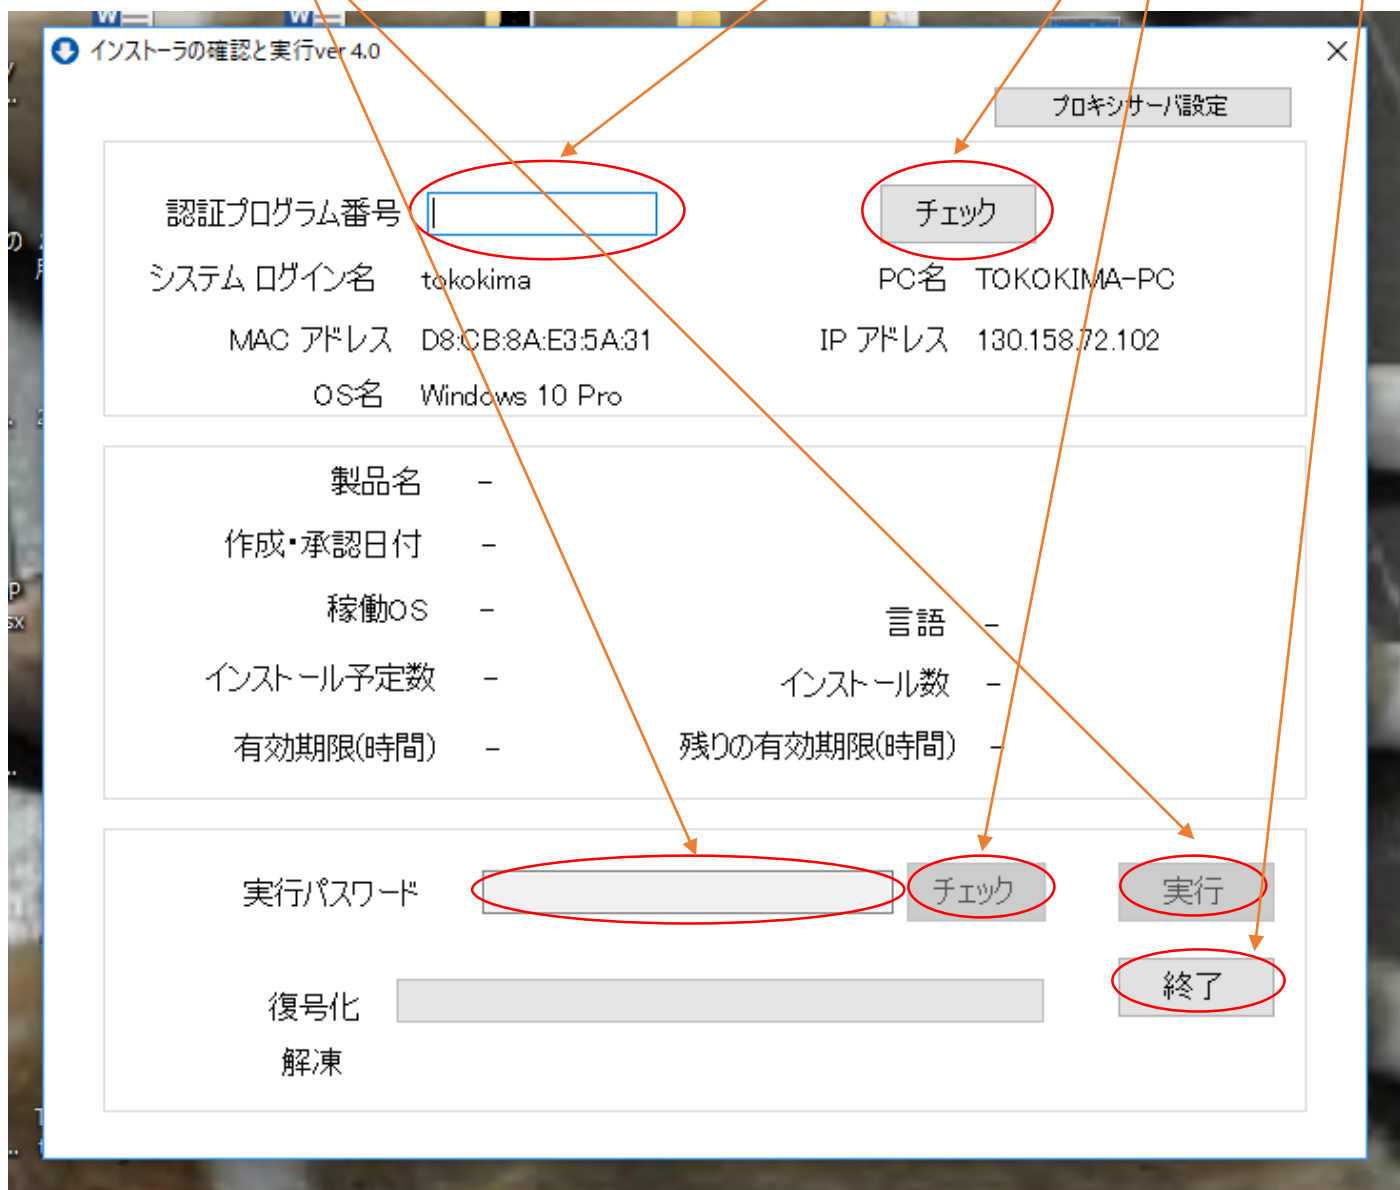

5. The following page appears. Decide on your “実行パスワード [Installation Password]” and enter it twice. Scroll through “利用規約 [Terms of Use]” and check “同意します [Accept]”. Then click on “ダウンロード [Download]”.

6. Your “認証プログラム番号 [Program Code]” will be provided. Remember it.

7. Run the downloaded installer. You will be prompted to enter your “認証プログラム番号 [program code]” and “実行パスワード [installation password]”. After entering each of them, click on “チェック [Check]”. Finally, click on “実行 [Execute]”. When a message saying “完了 [Completed]” appears, DO NOT CLICK ON “終了 [Finish]”. Wait for a while until installation is completed.

- When the installation finishes, you will be prompted to reboot your PC.
- After rebooting, check if the icon is available. Click on it and the window below will appear.
